What our customers say about us

The digital pulse assessment was super critical because it allowed us to take a step back and really analyze our value chain and where those key pain points were for us. What came out of it is a set of really strong recommendations.” - **Enterprise digital transformation and Data & AI solutions**

Ben Isley
Head of Transformation
Stuart Alexander

We have hit many milestones together with Infor and Fortude. One highlight has been our pace of change. Testing our environment now takes 16 hours, down from 450 hours in the pre-Infor, manual days. This vast improvement has been a real enabler for rapid change in the business.” - **Migration to the Cloud and automated regression testing**

Zack Chisholm
Chief Information Officer
Bega Cheese

With Fortude’s expertise and support, we set up a data management and analytics platform based on Microsoft Azure’s data services. It leverages Azure Data Lake Gen2, Data Factory, Databricks, Synapse Analytics and Machine Learning along with Power BI for enterprise data models and analytics.” - **Data and AI solution**
